000 booked upon which the Eastern funds have been promised, but there are many details to be decided in a transaction of this magnitude."—Western Tobacco Journal.

"It was announced last night that W. B. Hawkins, President of the Burley Tobacco Growers' Association, who is now in New York conferring with the syndicate of capitalists who are to finance the Association, had telephoned that he had been successful in his mission among them, and that the Association would begin Wednesday morning to carry out its contracts with its members."

"The purpose of Mr. Hawkins' visit to New York was to bring about the elimination of a certain clause in the contract between the Association and the capitalists, to which objection had been made by Cincinnati parties who had agreed to take the remaining unsold portion of the capital stock. The particular clause caused them to feel unsafe. Hawkins promised to get it changed if he could."

# HELD A CONFERENCE

## Emperor Nicholas and Members of the Council Met.

They Considered the International and External Situation in Russia—No Indication That Continuation of War Will Be Abandoned.

St. Petersburg, Jan. 9.—The conference which Emperor Nicholas has been holding with members of the council of the empire, M. Witte and other ministers and advisors on the international and external situation, have not yet been concluded, but nothing has occurred which would indicate that the government is prepared to depart from its present program of continuing the war to the bitter end. Nevertheless, talk of peace was heard in many quarters, the foundation for it being ascribed to Foreign Minister Lamshed's alleged position in favor of such a course on the ground that aside from the humiliations to military prestige involved, it would only mean the relinquishment of Manchuria to which Russia already is formally pledged. There is no confirmation of this statement of Count Lamshed's position beyond the general knowledge that he always has belonged to the peace party.

It is quite probable that the peace talk going has been produced by the arrival of foreign papers, as it receives no encouragement in responsible quarters here.

Lady Hotel Guest Not Lightenest from the Waiter.

A woman lives at one of the Kansas City hotels who has the reputation of being rather flashy and hard to please in the matter of food. A day or two ago at lunch, relates the Kansas City Journal, after looking over the dessert list, she decided on some ice cream pudding. The meal had been one with which she had considerable difficulty in finding fault, but when she had about half finished the dessert she called the waiter over and said:

"George, what do you mean by calling this ice cream pudding? There and say they mean about it, and you know it."

"Yes," said the waiter. "I know where you got it, but I don't know if it is a name they give it. I do know why."

"Well," answered the waiter, "if they give a dish such a name they ought to make it conform to the name, and if you call this ice cream pudding, you ought to bring some ice cream with it."
